AUSTRIAN PEACE PACT IS NEARING COMPLETION By Associated Press.

PARIS. May 12.—The peace treaty with Austria, is nearing completion, and an official summary of it is being prepared, as was done in the case of the German treaty.

Although it is not so stated in the treaty, the new Austrian frontier is the one designated by the secret treaty of London, giving Italy all the strategic heights and defensive passages.

Sends Note to Clemencean.

Sends Note to Clemencean.

Count von Brockdorff-Rantzau, German Foreign Minister, and chief of the German peace delegation, in addressing a note to Fremier Clemenceau relative to the repatriation of prisoners, asks that the details of the transfer be entrusted to commissions.

The German Foreign Minister states the German peace delegation has "noted with satisfaction" that the draft of the treaty recognizes in principle the repatriation of German war and civilian prisoners with great expedition, and says that special commissions might-carry on direct oral discussions which would include all belligerent states, it being pointed out that even during hostilities this has proved a most effective way of solving difficulties.

The note says this work should be much easier, now that the war is over, and would remove differences of conceptions or lack of clearness on particular points, such as legal conceptions in individual countries. The German delegation, it is said, considers it indispensable that those war and civilian prisoners detained or undergoing punishment for other than disciplinary offenses should, in principle, be included among those to be unconditionally repatriated.

"Regarding war and civilian prisoners of allied and associated powers in its hands," the note says: "Germany has recognized the same principle, it appears self-evident to the German delegation, therefore, that on grounds of fairness certain alleviations in the treatment of prisoners should be agreed upon pending their return."

Suggests General Reciprocity.

The note then proceeds: "In a one.**

Suggests General Reciprocity.

Suggests General Reciprocity.

The note then proceeds: "In a one-sided manner, some feel the stipulations have been made in favor of the allied and associated governments. For instance, those regarding the surrender of personal property, the search for missing objects, and the care of graves might be cited. It is assumed that in these questions a demand for complete reciprocity is founded on general human rights."

The note then refers to a number of minor points and proposes that delinerations by commissions should be begun speedily to clear up preliminaries in readiness for the time when shipping and similar difficulties may be solved and the removal of the prisoners may be possible. It alludes to the importance to Germany that the prisoners return home under orderly conditions, insuring their reinstalement into economic life with the greatest possible dispatch and says that this seems only possible if everything is done to "raise the moral and physical state of those returning."

Since Germany's economic position prevents her by her own strength from providing the requisite guarantees, the delegation suggests that the deliberations of the commissions might extend to the question of how far it would be possible on the part of the allied and associated governments to help Germany in the matter and for example in return for the repayment of the cost to provide the prisoners with new out-

TEUTONS ARE BITTER BUT READY TO YIELD

American Soldiers at Coblenz Find Germans Sullen-Declare Terms of Treaty Are Too Harsh.

By Associated Press. COBLENZ, May 12.—The impression gained by American officers through talking with Germans regarding the peace terms is that many of them are bitter and sullen, but are inclined to resign themselves to accept any terms, no matter how harsh. No concrete plan of action has been suggested in the event the German delegates at Versailles refuse to sign the treaty. Versailles refuse to sign the treaty.

American officers say the common people in the occupied area have widely different views, but that as a whole, they appear more or less stunned. Many of them seem crushed, but others are showing a spirit of bravado. Several German officials are quoted as having said that the terms are more severe than they expected, but, although it would be necessary for the German delegates to argue against some of the conditions imposed, they felt there was little else to do but sign.

In his note dealing with labor ques-tions. Count von Brockdorff-Rantzau says the German government agrees with the allied and associated governwith the allied and associated governments with the allied and associated governments with the allied and associated governments that the greatest attention must be paid to these problems.

"Internal peace and human progress depend on how these questions are handled," the note says. "The demands for social justice repeatedly drawn up in this connection by workers of all lands only partly find indorsement in principle in this section of the allied governments' draft of the peace terms. These high demands have for the most part already been carried out in an admittedly examplary fashion in the German empire."

Referring to the draft of an agreement on international labor compiled by the German government and proposition of the British claims is the first to be reached by the American liquidation commission, of which didge Edwin B. Parker, of Houston, Tex., former member of the War Industries Board, is chairman.

Urges Signing of Treaty.

The first influential voice to advocate the signing of the treaty of peace, was heard today. It is as yet a cry in the wilderness of national wrath, but there are signs of others high in the empires councils awitching to a contillatory mood. The voice is that of Karl Kautsky, under-secretary of State, who, writing in the radical organ. Freiheit, asserts the allied peace terms do not imply the ruin of Germany. "On the other hand," he says, four refusal to sign would entail ruin of the world."

civilian groups and individuals as follows:

Under existing conditions it is impossible for Germany ever to pay its war debts. Before the war Germany had only 16,000,000,000 marks in gold, and the demand for pounds sterling in gold or merchandise in the first two years is absurd. How are we to pay, where there are no goods, if we have neither money nor credit with which to purchase materials or ships, if ours are taken by the allies?

Several civilians, according to the summary, expressed the opinion that the peace conditions were very hard, but still were not as severe as some had expected, and that they would rather that Germany accept them than Eleven undered and three Hundred and the Alaskan were likewise sentitle alaskan were alaskan were likewise sentitle alaskan

Louisiana Governor Draws Draft for Body Appointed by Him to Prepare Program.
